

# Digital Fundraising Summit 2024 - online conference

## 07 November 2024

◆ 9.35am -10.10am - **KeyNote Session - AI Readiness : Practical steps for your nonprofit's AI strategy**, Patrick Frank, AI and Data Expert - Marketing Cloud Leader for Nonprofits at Salesforce

This expert-led AI Readiness session will offer nonprofits a structured approach to assess their AI readiness and implement a strategy aligned with their mission. Designed to support organisations at every level of AI experience, the session includes foundational concepts, practical tips and advice based on where you are on your AI journey, and actionable steps to create an impactful AI approach.

# AI readiness Practical steps for your nonprofit's AI strategy

Patrick Frank  
Director Marketing Cloud for Nonprofits  
Salesforce

# Forward looking statements

This presentation contains forward-looking statements about, among other things, trend analyses and statements regarding future events, anticipated growth and industry prospects, and our strategies, expectation or plans regarding product releases and enhancements. The achievement or success of the matters covered by such forward-looking statements involves risks, uncertainties and assumptions. If any such risks or uncertainties materialize or if any of the assumptions prove incorrect, results or outcomes could differ materially from those expressed or implied by these forward-looking statements. The risks and uncertainties referred to above include those factors discussed in Salesforce's reports filed from time to time with the Securities and Exchange Commission, including, but not limited to: our ability to meet the expectations of our customers; uncertainties regarding AI technologies and its integration into our product offerings; the effect of evolving domestic and foreign government regulations; regulatory developments and regulatory investigations involving us or affecting our industry; our ability to successfully introduce new services and product features, including related to AI and Agentforce; our ability to execute our business plans; the pace of change and innovation in enterprise cloud computing services; and our ability to maintain and enhance our brands.

# Thank you

# Change and evolution are inevitable

**Wave 1**

## Predictive

How to |

- How to increase conversions
- How to optimize spend
- How to personalize experiences
- How to grow relationships

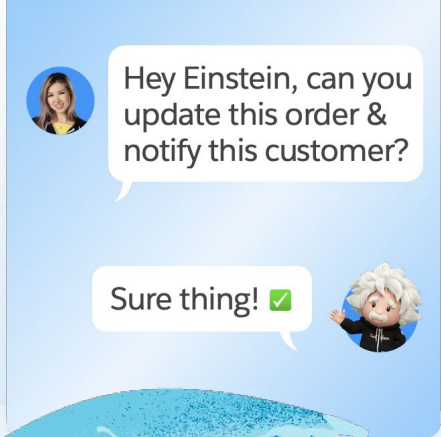

**Wave 2**

## Generative

**Wave 3**

## Autonomous & Agents

**Wave 4**

## Artificial General Intelligence

# Staff are overwhelmed

Low value tasks

Stalled productivity

Fixed capacity

41%

of time is lost to low value & repetitive tasks

#1 Nonprofit Challenge is Managing Workload and Staff Wellbeing

# Stakeholders expect more

Zero hold queues

Personal experiences

Empathetic conversations

# So... What is AI Readiness?

**AI Readiness refers to an organization's preparedness + capacity to adopt AI technologies in it's operations.**

# AI Is Here: Nonprofits are Curious and Cautious

## AI Sentiment in Nonprofit Sector

## AI is only as good as your DATA

Having a strong data foundation:

- ↓ trapped and siloed data
- ↑ data quality and hygiene
- ↓ hallucinations
- ↑ data privacy

# Is your Nonprofit AI Ready?

salesforce

# Are YOU AI Ready?

# What's your Responsible AI Comfort Level?

## Tourist

I am just visiting.

I am unfamiliar with the streets and landmarks and need a guide to get around.

## Sightseer

I have seen some of the main attractions.

I recognize a few landmarks but still rely on maps and guides to navigate.

## Local Guide

I can navigate many areas confidently and have a good understanding of the city's layout.

## City Planner

I can show visitors around, explain the history and significance of landmarks, and navigate most areas with ease.

## Mayor

I am a recognized authority on all matters

# AI Readiness Framework

Mapping AI to your Nonprofit Organisation

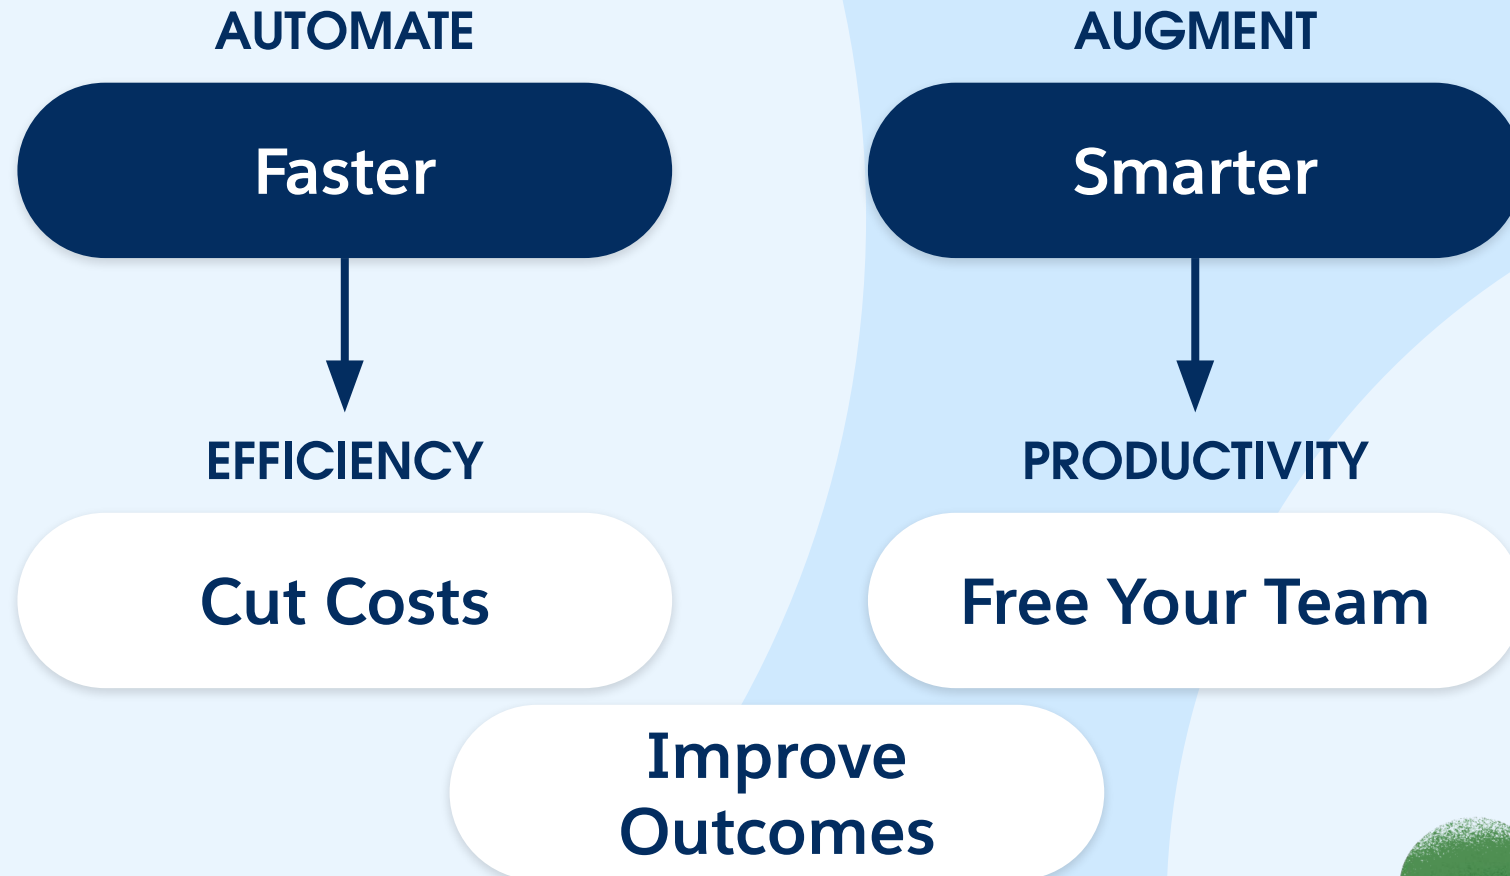

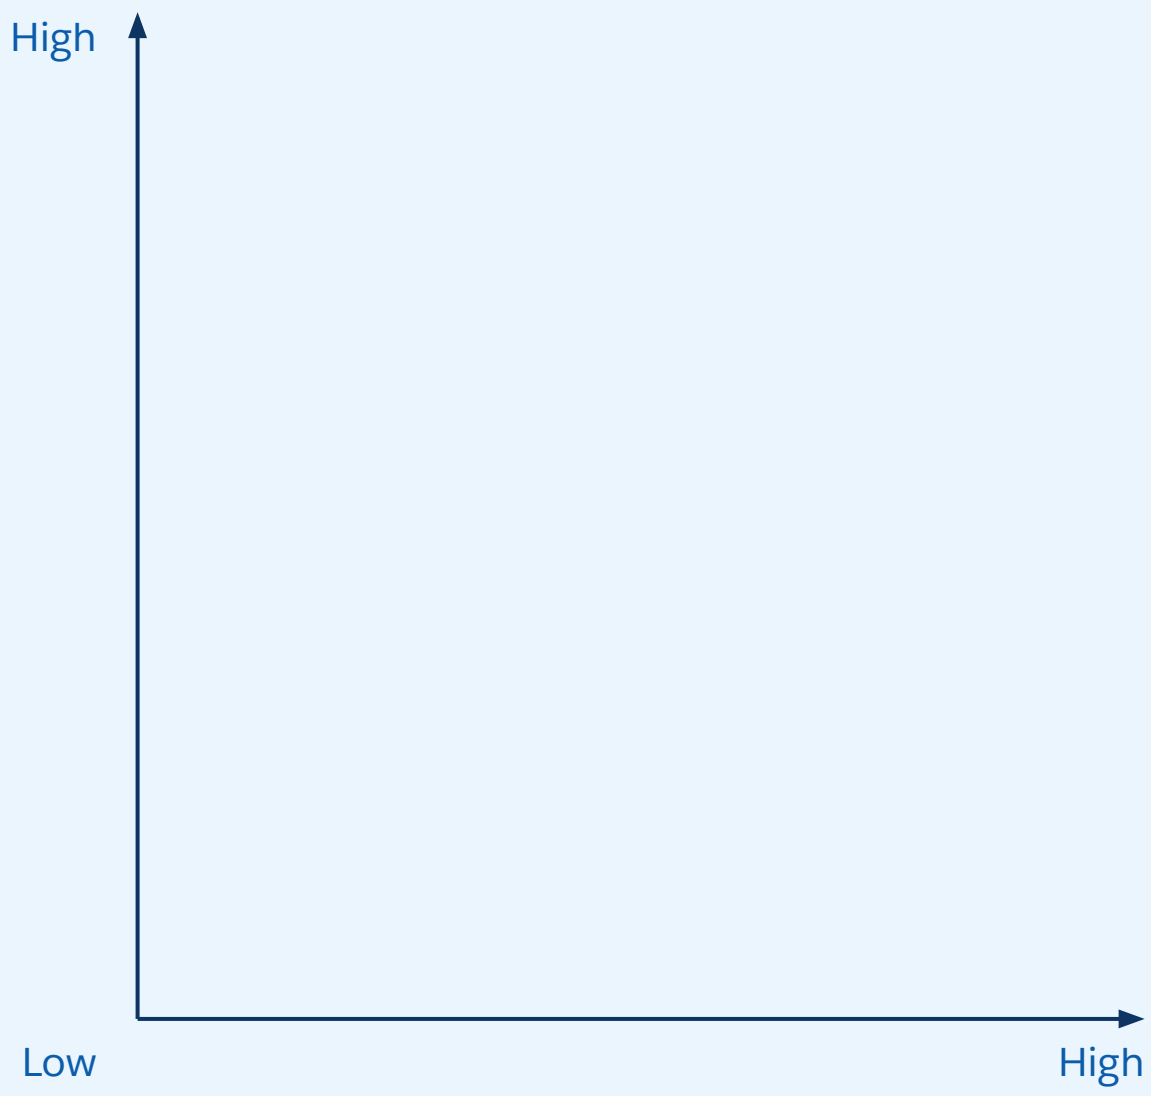

# Let's focus our expectations

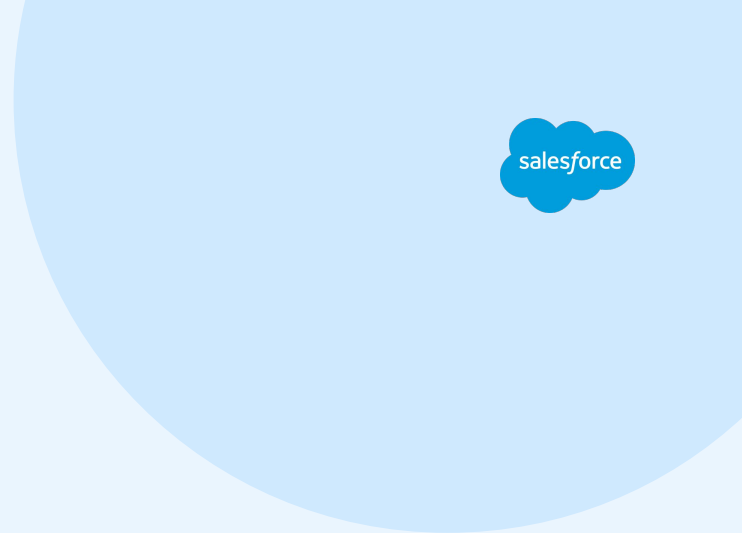

# Organizations must adapt, and FAST to **automate** and **augment** tasks

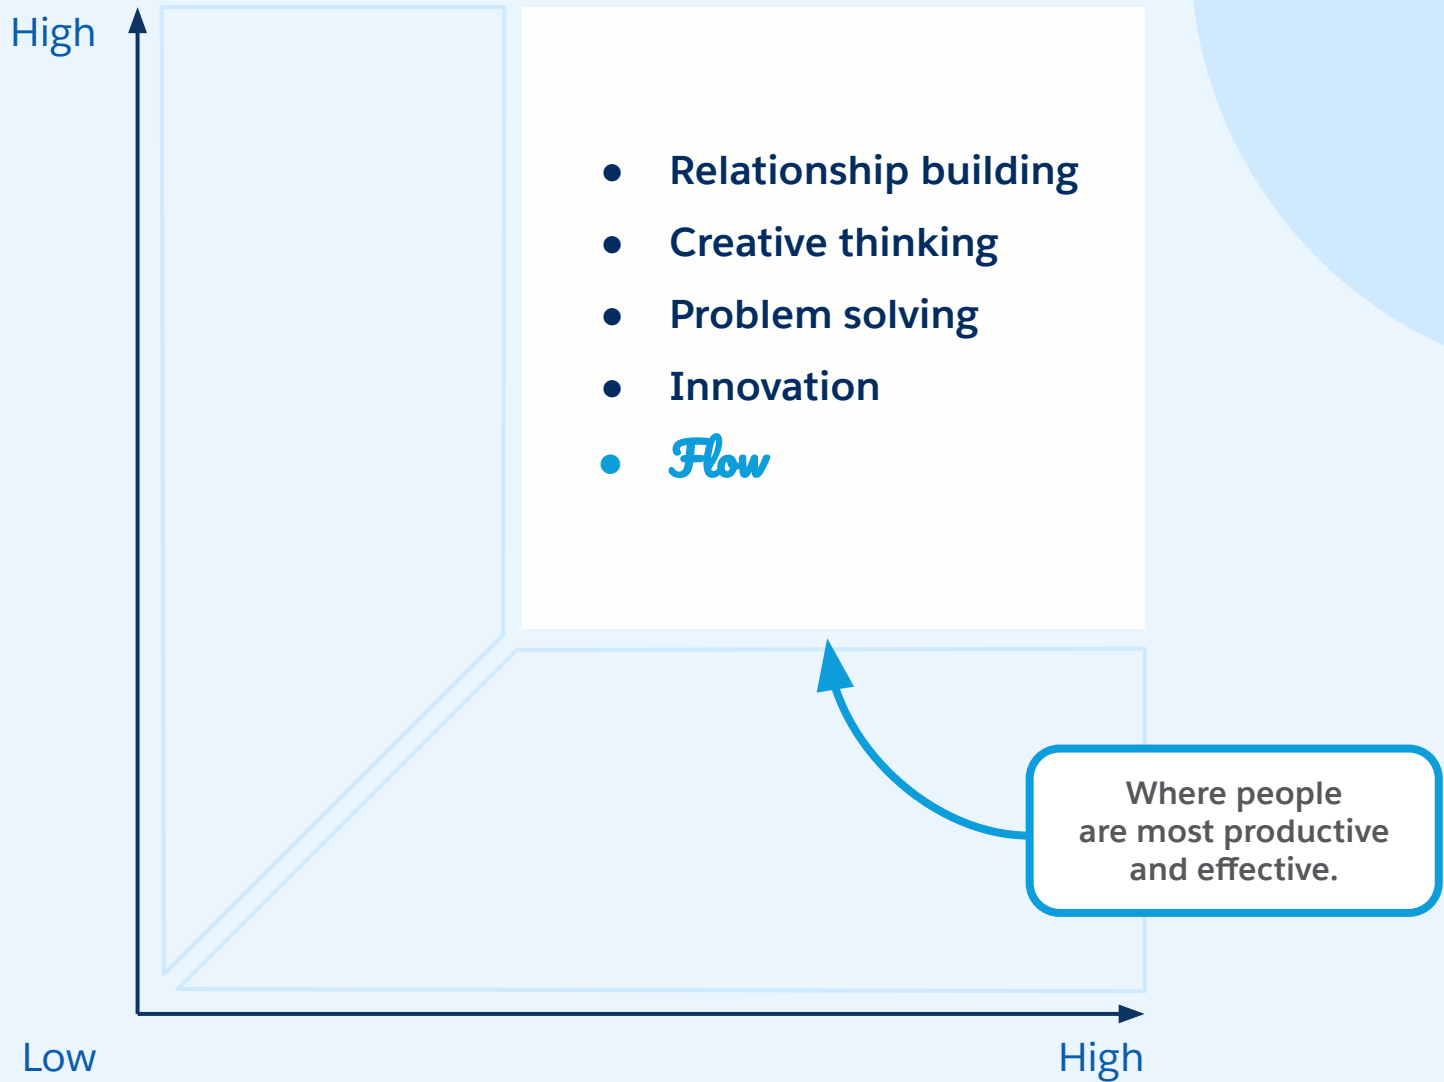

**Cognitive Load**

**Organizational Impact**

 Cognitive Load

 Organizational Impact

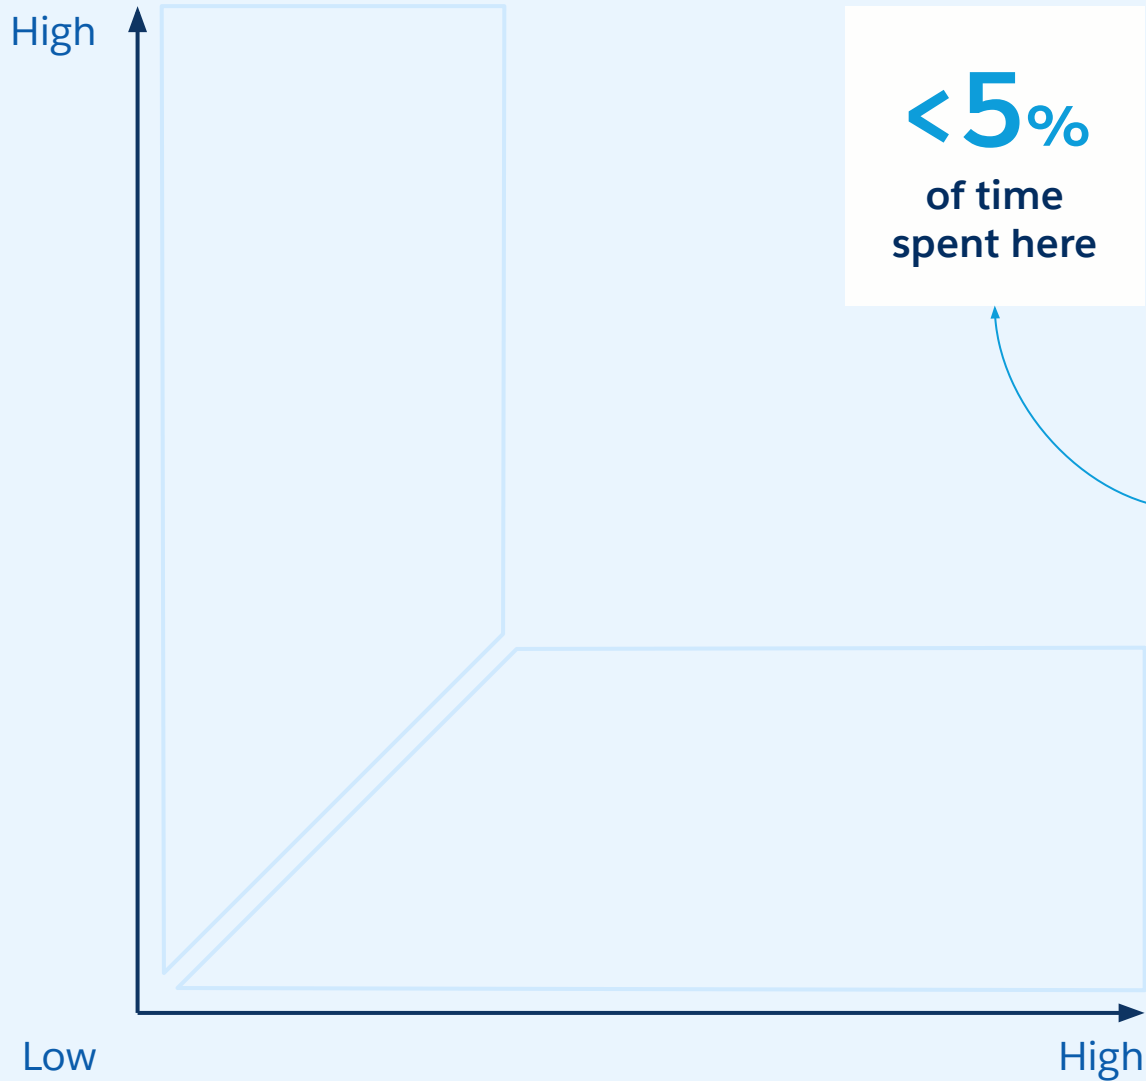

Cognitive Load

Organizational Impact

Cognitive Load

< 5%  
of time  
spent here

Most of us spend less than 5% of work life at our peak flow. Workplace productivity would almost double if that was bumped to 20%.

How can I not  
lose the human  
touch at the  
same time?

Every Nonprofits Needs a  
Responsible AI Strategy  
with a Human at the Helm.

# Guidelines for Responsible GAI

Adapted from our published internal guidelines for Responsible Generative AI

## Accurate

- Have quality in your grounding material.
- Convey uncertainty when the answer isn't clear.
- Enable fact-checking when possible.

## Safe

- Mitigate bias, toxicity, and harmful content.
- Protect PII and prevent data leakage.
- Guard against nefarious use.

## Honest

- Respect data provenance and attribution where possible.
- Make clear that content is AI-produced when delivered.
- Align use of AI to your company's values.

## Empowering

- Recognize & supercharge human capabilities.
- Make accessible to all.
- Engage in responsible labor practices.

## Sustainable

- Right-size models to reduce carbon and water footprint.
- Balance value of applying high-power queries to expected benefit/gains.
- Include IEEE metrics for responsible AI

# ...to PRACTICE: Organisation Requirements

From Principles to Practice: Responsible GenAI principles should be broken down to provide specific guidance for teams when building.

## Accurate

## Safe

## Honest

## Empowering

## Sustainable

	Accurate	Safe	Honest	Empowering	Sustainable
People	<p>Always provide min. 2 citations in customer facing content;</p> <p>Always show confidence score of generated content to employees/internal users</p>	<p>Always show toxicity score to employees/internal users;</p> <p>Never display any results with toxicity score &gt;65%;</p>	<p>Always train workers in genAI company policy details;</p> <p>Always provide on-screen guidance and customer disclosure statements for employees to use when genAI is a conversation participant</p>	<p>Always put the majority of accountability for the outcomes of a task with people, not machines;</p> <p>Always implement AI assistance that makes employees more knowledgeable</p>	<p>Create in-app guidance for users to understand the environmental impact of their genAI interactions</p> <p>Let users choose opt-outs where there is no impact of not using genAI feature</p>

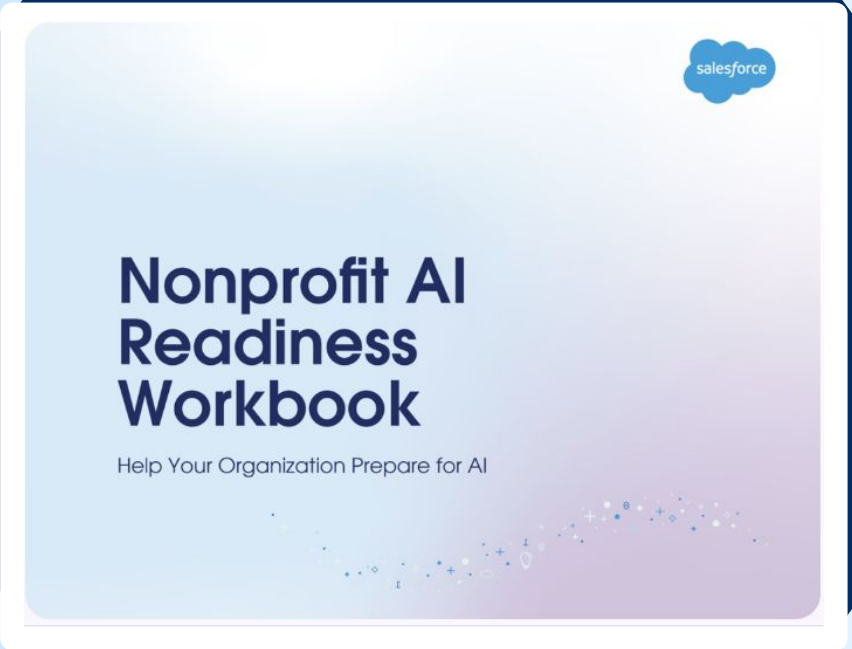

\*Requirements demonstrative of applicable rules for AI use cases based on ethical principles
