Why do you need file backup

Data stored locally

- Laptop

- Server

- Network Attached Storage

Application data

Critical computer recovery

Disaster Recovery

Flood, Fire and Theft

Hardware failure

Data corruption/loss of access

Critical on premise infrastructure

Rapid recovery to the cloud

Need for isolated testing

Outsourced service and not risk

Layered data protection

Acronis Cyber Protect

Endpoint security

Full protection against any type of malware, including Microsoft Teams exploit protection

Endpoint management

Proactively avoid downtime and attacks with endpoint monitoring and remote troubleshooting

Anti-ransomware and vulnerability assessment

Stop ransomware attacks and find unpatched applications

Email Security & DLP

Fight email-borne threats and data leaks

Backup & data protection

Prevent irrecoverable data loss and downtime

Product Demo

Monitoring and reporting

Protecting Computers and Microsoft 365

Backup Plans

- Retention periods

- Data Encryption

Data restore files and Microsoft 365

Acronis Cyber Protect

Data Protection

Microsoft 365	Google
User mailbox Email, Calendar, Contacts, Tasks	User Mailbox Email, Calendar, Contacts
Shared mailbox Email, Calendar, Contacts, Tasks	User Drive
Public Folder	Shared Drives
User OneDrive	
365 Group Mail data and Group Site	
SharePoint Site	
Teams Mail data and Team Site	

Two license modes

User based with unlimited storage

Volume based

The tipping point is around **20GB per user** based on the licensed users in the platform

Backup service pricing

Microsoft/Google

Size*	Price	Discounted
1-9	£34.98	£17.49
10-24	£34.20	£17.10
25-49	£33.70	£16.85
50-99	£33.20	£16.60
100-149	£32.70	£16.35
150-249	£32.20	£16.10

* based on licensed users in the platform

50% discount

Data Volume

Size	Price	Discounted
50GB	£62.00	£43.40
100GB	£124.00	£86.80
200GB	£244.00	£170.80
500GB	£599.00	£419.30
